Guest: Dr. Daniel Adams, Ph.D.

Chief Scientist for the Vision group at Neuralink Corp

Dr. Adams is a visual neuroscientist specializing in binocular vision in humans and non-human primates. Dan Adams leads the Vision group at Neuralink. He received a PhD in Visual Neuroscience from University College London with Professor Semir Zeki. Prior to joining Neuralink, he was an Assistant Professor in Ophthalmology at University of California San Francisco, working with Professor Jonathan Horton on the neurophysiology and anatomy of binocular vision in humans and macaques. Dr. Adams also spent 10 years as an Associate Professor at the Center for Mind/Brain Sciences (CIMeC) at the University of Trento Italy, where he enjoyed teaching Neuroscience to Masters students.
